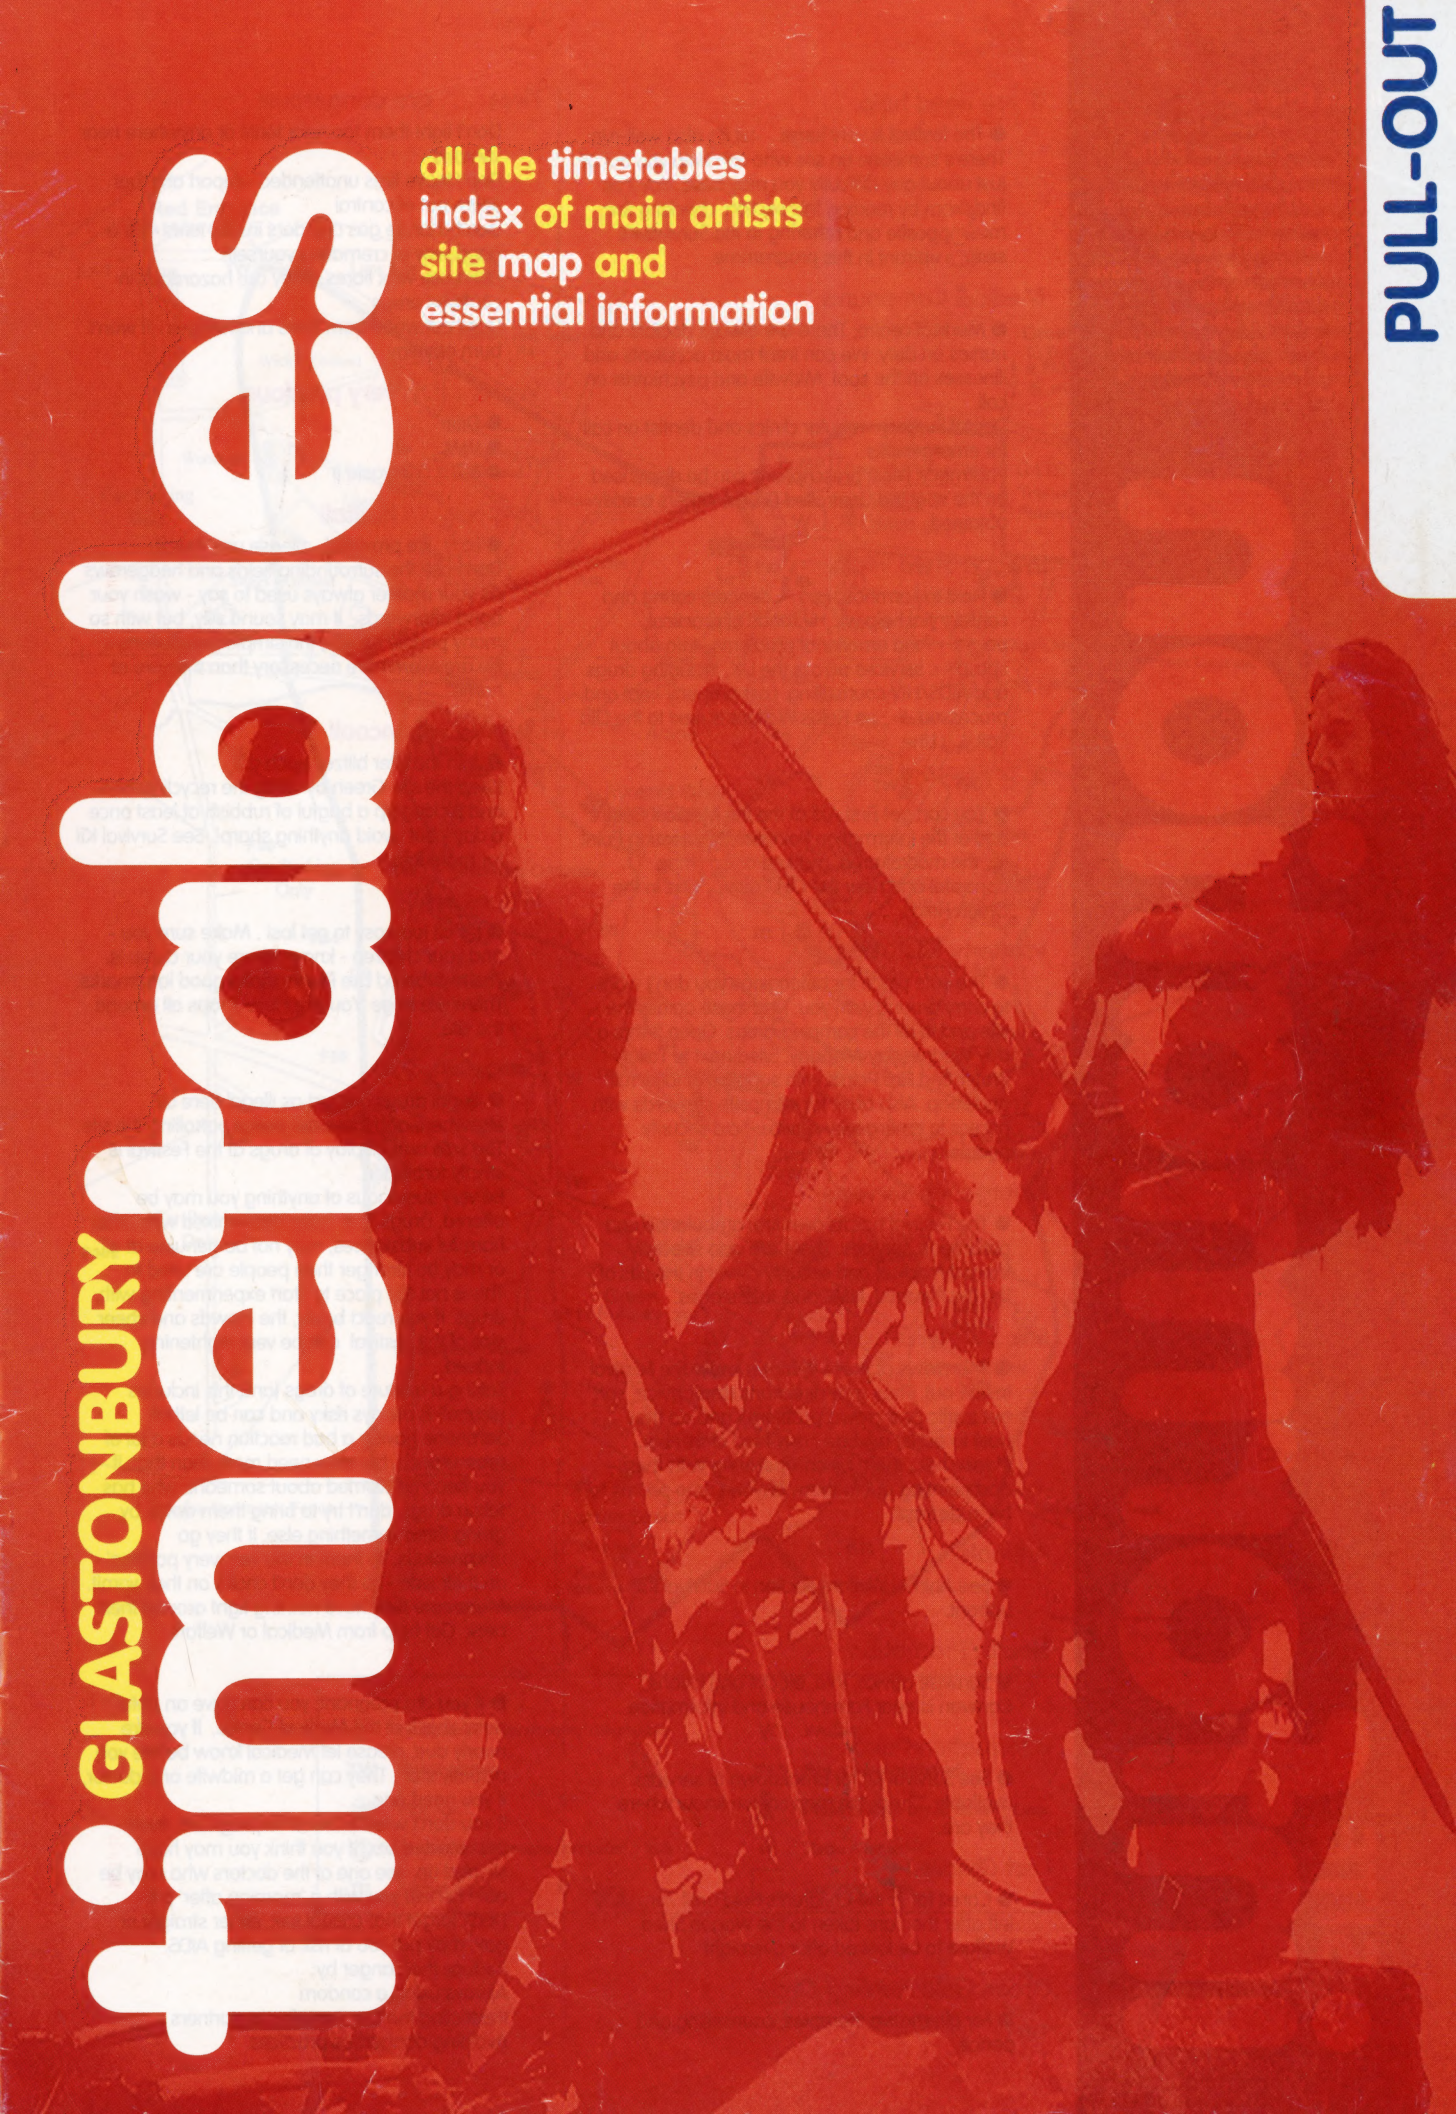
essential information

PULL-OUT



.SITE information

In An Emergency

FIND a member of the Festival staff. REPORT clearly what is wrong and where it is. Security, Information and the campsite Lock-Ups all have contact with the Emergency Services. Ambulances, fire tenders and police are patrolling the site at all times.

If you need help. . .

- The festival is very large - but it's also well-run. There's someone on site who can help you out of just about any difficulty you may have. You can find them by reading this section, checking the map opposite and referring to the Survival Kit section upfront in this programme.

Medical Compound

- Medical centre: There are always doctors and nurses on duty. We can treat most accidents and illnesses on the spot. Midwife and psychiatrist on call.

Dental Surgery: regular clinics and dentist on call for emergencies.

Pharmacy: Most prescriptions can be dispensed on the spot (no Controlled Drugs): others quickly obtained.

Wagon Shed Welfare

- Next to Farmhouse. Experienced, caring and confidential help with all kinds of practical, personal and emotional problems. Info about specialist services across the UK, including drugs and AIDS/HIV counselling. Lost property kept and processed. Green Fields Welfare is next to the Old Railway Line.

First Aid

- You can get First Aid at the the Medical Centre and at the Information Points at the Meeting Point (in the market area, marked on the map opposite) and near the Old Railway Line in the Green Fields.

Property Lock-Ups

- The safe place for belongings you don't want to carry around with you. Find these across the site and in all the camping areas. Open 24hrs a day Wednesday-Monday. Sited next to Toilet, Water and Fire Points with supplies of toilet roll and soap. Also base for campsite stewards with access to emergency services and security people.

Emergency Services

- The Festival has its own fire, ambulance and paramedic services. There are also specially trained medical and security crews in the pits of the the Pyramid, NME and Jazz stages.

Site Safety Vehicles

- The crews of these vehicles know the Festival inside out. They give directions and advice, sort out traffic and crowd problems and do their best to assist anyone i any kind of trouble. Please help them by co-operating with them and pointing out to them anyone who seems to be in distress.

Animals

- See Animal Welfare section in Survival Kit upfront.

Health Promotion

- Sunwise advice, info, blocks and lotions. Caravan is near Farmhouse and Information.

Information Points

- See Survival Kit for breakdown of services available. Check the map so you know where they are.

Lost Children

- Cared for in the Children's Field until 7pm. Any left after then are taken to the Wagon Shed Welfare to be looked after overnight.

Green Field Healing Circle

- For alternative therapies, counselling and peace

Fires . . . are dangerous!

Don't light them too near tents or anywhere near vehicles

Don't leave fires unattended - report any that seem out of control

Don't change gas cylinders inside tents - it's a good way of cremating yourself!

Don't use wax flares - they are hazardous in confined areas

Don't cut wood from trees and hedges - it won't burn anyway

Water . . . is very precious!

- Drink It
- Wash in it
- But don't waste it

Hygiene . . . is vital!

- Loos are provided - please use them!

Don't use the surrounding fields and hedgerows

As your mother always used to say - wash your hand afterwards. It may sound silly, but with so many people on site, the simple precautions in life are even more necessary than they are at home.

Litter . . . is uncool!

- Join the litter blitzes each day

Keep the site Green by using the recycling bins and picking up a bagful of rubbish at least once a day - but avoid anything sharp!. See Survival Kit for more info.

Where Am I?

- It's all too easy to get lost . Make sure you - and your children - know where your camp is. The numbered Fire Points make good landmarks. There are large 'You Are Here' maps all around the site.

Drugs

- Illegal drugs are just as illegal here as elsewhere and there are police patrolling the site. The sale and display of drugs at the Festival is strictly forbidden.

Be very suspicious of anything you may be offered. Drugs may have been mixed with other harmful substances, may not be genuine at all, or may be stronger than people are used to.

This is not the place to start experimenting with drugs. If you react badly, the crowds and sheer size of the Festival can be very frightening indeed.

Taking a mixture of drugs (and this includes alcohol) is always risky and can be lethal.

Someone having a bad reaction needs a lot of reassurance, but may need more than that. If you become worried about someone who has taken drugs, don't try to bring them down by giving them something else. If they go unconscious, lie them in the 'recovery position' - on their side - so they don't choke on their vomit. Make sure they have nothing tight around their neck. Get help from Medical or Welfare.

Sex

- If you are pregnant, you can have an ante-natal check at the Medical Centre. If you are nearly due, please let Medical know before you actually start. They can get a midwife or a doctor, if you need one.

If you don't want to become pregnant, avoid unprotected sex. If you think you may have slipped up, see one of the doctors who may be able to help you with a 'morning after' pill.

Don't forget that casual sex, either straight or gay, may put you at risk of getting AIDS.

Reduce the danger by:

Always using a condom

Restricting the number of your partners

Avoiding dangerous practices
